The Great Socialist People's Libyan Arab Jamahiriya
The General People's Committee of Electricity, Water and Gas

Invitation for Workshop

Modern Trends in Water and Natural Gas Networks, Planning, Execution and Management

The General People's Committee Of Electricity, Water and Gas (G.P.C of E.W.G), is sponsoring an international workshop for the water and natural gas networks " ***Modern Trends in Water and Natural Gas Networks, Planning, Execution and Management***".

The workshop will allow the speakers from public and private utilities to share and present their experience for setting up models for planning, execution, management and operation of the water and natural gas networks.

The workshop will also, allow key active engineering, consultancy, construction and manufacturing companies to present their experience and future technology trends in the field of water & natural gas networks.

The workshop program outline and the participation confirmation form are enclosed.

Participants are welcomed to acknowledge the receipt and to confirm their participation by return fax or email by February 24, 2007.
