

# Elegant Fashion International

## Company Profile

### INTRODUCTION

Elegant Fashion Company was founded in 1988, Located near the Beautiful suburb of Heliopolis near Cairo int'l' airport. The manufacturing area is of a total 1500 square.

We are specialized in manufacturing leather garments, from different hides, like goat, lamb, and cow.

Elegant Fashion has invested since the first day of the foundation of our company lots of time & effort, to reach a very prime level in local market.

Elegant fashion is committed to continuous improvement to ensure the quality of its products, while offering a superior work environment to enhance the welfare of its employees and to transmit the accumulation of knowledge to the future generations.

Elegant Fashion aims to be in full understanding of trends and development to form a long lasting relationship with its customers by offering very competitive prices with the shortest possible lead-times and unconditional satisfaction in perspective.

Elegant Fashion manufactures an average of 20000 garments annually, and is using the latest development in pattern grading and lining cutting by using the audaces software.

The line production system with 50 specialized machines ensures uniformity, contributing to the image of the customer brand.

WE are looking for a long term relationship with a Turkish counter part in the terms of Sub-contracting, to manufacture the Italian brand with our fair prices and our skilled labors, whilst maintaining the same fine Turkish standards of quality. This on going co-operation might hopefully -on a later stage- develop into some sort of partnership or a joint venture.

Please do not hesitate to contact us for any further information.

Sincerely yours.

Sherif Elmetainy
