Smitthi Chiranandh (泰)
泰国小老板海苔 市场总监

This is great! China is one of the biggest ecommerce market in the world. So this is very interesting and Alibaba also a big big company. It is a good chance to come here. Young consumer or even like Chinese consumer eat our product a lot. Our business has to develop new product all the times. We have plenty of products and new flavors coming. What's the most impressed of the program is that suggestions they give us are very good and specific ideas! This is like insight very inside, because we don't know exactly over here, but the lecturers knows everything. Because over here you got very very large data! And you utilize it very well. Now We know personal behavior. We know Alibaba system. We know e-commerce system. **And we know how to manage and what is the gap with these opportunities that they can grow the business over here.**

-Smitthi Chiranandh

Marketing Director of Thailand Taokaenoi – Seaweedsnack

Ron Tong

Lorna Jane

我们是澳洲排名第一的女士运动内衣品牌。2年前我们在淘宝开了店，成绩不错，随着品牌的知名度在中国越来越高，去年我们就开了天猫店，销售额增长得很快。今天阿里巴巴环球课堂的内容，让我发现还有这么多方法是我不知道的。今年双十一我们打算尝试直播，一直担心会遇到信号问题，结果今天通淘宝大学的课程认识了阿里云的分享者，太及时了！我刚好这几天在悉尼，赶上这门课，觉得很幸运，课程内容非常有价值。我们在中国有个20多人的团队，我希望可以让他们去参加淘宝大学更深入的课程，比如数据获取，内容营销。因为阿里生态的玩法特别多，有太多我们需要学习的。

 CEO of Superkit and Marketing Co., Ltd.
 700,000 followers (which accounts for 1% of Thai population) in Thailand

This program is beyond my expectation. The lecturers have all hands skill and all hands experience. They can answer our questions directly. Beyond that, I can see, I can learn the philosophy of Alibaba. Now I think if you watch the global news, you can see the Chinese digital economy is going very fast. The reason why I came here, because I want to learn why Chinese digital economy going very fast. And now I understand it and I think I can apply it in my business, and I can teach to my Thai followers as well.

David Palmer
 Evans & State

我们是西澳最大的红酒品牌，几年前开始就通过一般贸易的方式进入中国市场，我们在超市，商场里都有销售，但是成绩平平，今年三月我们加入了天猫国际平台，但是具体怎么运营好，该做些什么，以及如何更好地让TP帮助我们的品牌成长，这些我们都没有思路。这个课程来得非常及时，内容也很好，上午我学了不少东西，很希望你们能给我们更多的建议，像这样的活动应该更多一些，今天不仅是学到了东西，有机会和这些同行们交流也很难得。

How our program changed life of female entrepreneurs?

Karina

Back to my home Yogyakarta, I teach female how to make batik. A small group of women who live in the city of Yogyakarta. They're household women and they want to earn more money to support their family by making batik.

A lot of female entrepreneurs in Indonesia are not at the stage of starting production but they're lack of knowledge to grow it. It's not only about how to make batik themselves but also how to improve and expand their production to support their family. There's a huge gap of knowledge of how to leverage online channels to expand their sales. I'm very impressed with how Alibaba empower the individuals.

I gain lots of knowledge from this program. Especially the very diverse methods of doing marketing. That will be very helpful for me to teach my students to increase their sales online. And the most eye-opening part for me is that Alibaba's concerns about the microenterprises.
